10. Would you recommend this training to others?	12	0	/	/	/

1. What would you do differently?

- 1) To be consistent with exam type marking structure for vivas.
 - 2) I would prepare next few months with a plan in my mind as I know my weakness.
 - 3) The dinner needs to be in a bigger room to give more space and help mingling and social interaction. Need to finish all before 3pm for train/flight times.
 - 4) To concentrate on topics which are my weak points.
 - 5) Better food. Better course dinner.
-

2. What was the most useful part of the course?

- 1) Feedback from viva and clinical stations.
 - 2) The course gives an in depth scenario exam. I had no idea what this exam involves and what is the level expected. I also picked up my weak points.
 - 3) Good viva and feedback sessions. Great faculty. Very helpful top tips.
 - 4) Viva/clinical communication practice.
 - 5) Communication and clinical examination.
 - 6) Viva practice.
 - 7) Really liked the pre-course emails to the build up to the course.
 - 8) Viva training.
 - 9) Practice stations.
 - 10) Otology lectures/ H&N/Paeds/Communication station.
 - 11) The vivas and interaction. Having trained abroad, it was great to know the structure and pattern of examination and what was expected of me.
 - 12) Vivas

3. What was the least useful part of the course?

N/A

4. Any constructive feedback

- 1) You are doing a very good job – thank you.
 - 2) More Communication stations. More variation.
 - 3) In some of the top tip lectures, the lecturer tended to cover too much in too little time. Would be better to talk in slightly less subjects.
 - 4) Thank you, Mr Manick for all your hard work and kindness and this great course.
