2. What was the most useful part of the course?

- 1) Paeds top tips was fantastic. Good to get tips from those who have recently done the exam.
- 2) Communication and clinical stations.
- 3) Communications skills. Paeds. Lots of viva.
- 4) Clinical examinations.
- 5) Vivas.
- 6) Top tip lectures.
- 7) Viva and clinical.
- 8) Viva and communication stations - excellent.
- 9) Overall, very good.
- 10) Top tips from successful candidates. Viva and clinical skills station. Audiology station.
- 11) Interactive session and permission to take videos.
- 12) All.

3. What was the least useful part of the course?

- 1) Few lectures.
- 2) Radiology – needs more equipment? Maybe interactive.
- 3) Audiology station.

4. Any constructive feedback

- 1) It was conducted very well. Probably a bit more time on feedback to discuss the short comings.
- 2) Longer top tips talks. Great topics. Limit number to same. Vivas amazing. Clinicals a bit more time.
- 3) Very good course.
- 4) Faculty very friendly. Maybe indicate if I would have passed/fail at end (feedback.) Small point: more/better selection of food at lunch. Great course dinner though.
- 5) Good course – very helpful.
- 6) Excellent course. Delicious course dinner. Very enjoyable – thank you.
- 7) Very well organised. Very good staff/faculty. Very warm/friendly people. Definitely would recommend. Keep it up.
- 8) More senior examiners.

What would you do differently?

- 1) More senior staff “examiners.”

- 2) Plastic surgeon needs more briefing on the curriculum. Move radiology session to the morning. Rhinoplasty talk could be more succinct. Audiology station as teaching session.
- 3) More time for feedback, as I feel that's the most important part of the course.
- 4) Twenty minute talks
- 5) Show how to use cameras – I didn't know how to use and it would have been helpful.
- 6) Prepare more.
- 7) Please forward out handouts in PDF format.
- 8) Rotate 2nd round of staff more as repeated.
- 9) Perhaps scoring at the end of viva etc. so we know where we stand with regards to exam grading.
- 10) More tougher on delegate. Some form of written feedback i.e. which is weakest station etc.
- 11) Change my approach to my current position.
- 12) Some printed handouts.

Response/Action

Many thanks indeed to all for helping me out to deliver another excellent course. This time we have doubled up our faculty numbers. In fact we have finished on time. I am very delighted with your feedback. We value all your positive comments. It is a perfect reward for our hard work. (Just searched my emails, I have answered 87 emails regarding this course!) I have taken your some of other useful comments and discuss in our post team course meeting, will try to reflect in our next course.

Thanks Linda for summarising the feedback. It has certainly exceeded my expectations. Hard work has contributed this success. Sincere thanks to Faculty/ co organisers/ Team leaders/ Linda, Severn healthcare(sponsor) and Stephen Jones (Clinical lead who has kindly maintained finance part only). I have thoroughly enjoyed this course. All patients and actors are happy as well.

I have got verbal feedback form faculty as well. All of you have done well in our mock exam. I am sure you all do very well in the real exam. I wish you all good luck. Please let us know how you get on.

Please do come back to Dundee for other courses
