- 10) All the Viva sessions

**3. What was the least useful part of the course?**

- 1) Radiology

Jai response- I will certainly feed it to committee. However some stations starts with scans.

- 2) Well, hard to say. But possibly the hot seat idea was unnecessary. Some (including me) would find this quite scary and this is not a part of FRCS exam.

Jai response- I do agree it is not part of the exam. Open viva meant for discussing more viva topics in efficient way. We have managed to discuss 12 topics in one and half hour.

**4. Any constructive feedback**

- 1) Good organisation
- 2) More communication skill

3) Highly recommended course

**P.T.O.**

4) Keep going!

5) Very good venue

6) Would it be possible to get copies of slides? Excellent overall.

7) Increase the number of delegates

8) Keep longer time for feedback. I know it's tough

9) Perfect - never before written on a feedback form. This course is a credit to all involved and all should be congratulated. Many thanks.

10) The only thing I would suggest in feedback - to grade similar to exam i.e. if passed or not.

11) Marking station
